

Large Reddish creature runs on two legs

Sighting Details:

Date: 01/1982

Time of Day: *between 7:30am – 8:00am*

Season: *Winter*

State: Florida

County: *Santa Rosa*

Nearest town: *Milton & Allentown*

Nearest road/Highway: *SR 87*

Weather Conditions: *Partly cloudy light mist*

Terrain of location: *Heavy pine and hilly. Heavy brush in the field and a lot of gullies in the area. Heavy with vines on trees. The top of the hill overlooked a farming area and I would say the hill was 200 yards high.*

Location Details: *It was on the main road that turned off onto Whiting field and had the huge power lines running through it. I was only a kid and haven't lived there since I was 14*

Anything else odd: *Just the sighting*

Other Witnesses: *None*

Local Stories: *A month afterwards two stories appeared in the local newspaper.*

Submitted by witness on: *12/27/2000*

Original report:

While deer hunting in Milton Florida I saw a large reddish brown unknown animal run on its hind legs through a cleared power line area, 10 miles north of Whiting Field Naval Air station. The distance was about 100 yards. I then departed the area and never returned.

Follow-up investigation by: David S

I have spoken with the witness over the phone and have no doubt that he is telling the truth about what he saw that day. He went into great detail of the day and the events that took place. He wanted to share his sighting in hopes to help with our research. He said the creature ran fast on two legs and he didn't know what it was but after hearing other stories around town, he said it must have been a Skunk-Ape. Nothing else could run like that, especially not a bear.
